**Description of Change:**

Neonode Interface board consists of two main parts, Interface board NNAMCIFB00001 and the FPC-cable NNAMC80FPC001. These are Discontinued and replaced by NNAMCIFB00002 which has a Flex-rigid connected to the interface board, i.e. Interface board and cable is now the same unit. The electrical interface is not changed.

**Customer Impact of Change and Recommended Action:**

The new product is more robust against wearing. The FPC-cable cannot be exchanged since its connected to the interface board. The interface board size is decreased.
